**From Brand: House of White Birches : Country Christmas Crochet** before purchasing it in order to gage whether or not it would be worth my time, and all praised Country Christmas Crochet:

A lot of these patterns require cross-stitching so if that isn't your thing, this isn't your book. Also, the setup of this book bothers me; it reminds me of a magazine. Sometimes the entire pattern for one project is on one page, other times they'll put the beginning of the pattern on one page, another pattern the next page, then the rest of the first pattern a couple of pages later. I'll include a project list so you can decide for yourself if this book has the patterns you're looking for. Each pattern comes with

helpful tips, materials lists, and pictures. Happy Crocheting!

By Bob Weaver  
Awesome patterns for gifts and around the house. The projects are mostly usable and not useless like a lot of other books. I haven't made a project yet from the book, but I do plan to start real soon. The levels of difficulty vary and do have some instructions for certain stitches included in the book.

By DHobbit  
A beautiful book of ideas. Over 50 projects. Personally I am only tempted to make four, thus the 4 stars  
I haven't made any yet so I can not tell you if the patterns are accurate.
