We live in Arizona so that will be about May! All of the projects look like they will be something that my children will enjoy doing. (Ages 9, 8 and 5) I am pleased with the great detailed pictures and wonderful step-by-step instruction that will be very easily understood by kids of any reading age. There is a variety of projects that will suit boys and girls alike as well. Many of the materials you will need are probably all ready in your "crafting bin". I am planning on Homeschooling in the Fall so we will have even more time together to craft with this book. I feel that it is a worthwhile purchase that will contribute to many hours of memorable moments with my kids.4 of 4 people found the following review helpful. Great, Practical and Fun Craft IdeasBy Lisa E CowanI ordered this book because I enjoy doing crafts with my nephew and grandkids, and I was looking for new, creative and gender-neutral ideas. I am really pleased with this book! I've bookmarked a bunch of projects I plan to do with them, and am also excited about the ones that aren't bookmarked at this time, because they will be great for when the kids are a couple years older. As a result, this book will provide long-term value.5 of 5 people found the following review helpful. Fun for allBy R.C.P.So many crafts to try! My kids are 1,2,4,6 and we can always find something fun to do! Even has boy friendly crafts. This book is a keeper!

Children adore creating things with their hands--give them paper, paints and glue and they will entertain themselves for hours on end, allowing their imaginations to run wild and producing decorative objects that will amaze you. Crafting is a wonderful way to encourage your children to express themselves--and, for children, the creative experience is every bit as important as the end result. *Crafting with Kids* by Catherine Woram is packed with 35 colourful and enjoyable projects for boys and girls. There are appealing ideas for great gifts, fancy-dress costumes, seasonal decorations and fun things to do on rainy afternoons. All the classic crafting techniques are covered, from potato prints to papier-mache, taking in sewing, collage, modelling, stencilling and much, much more along the way, all imaginatively photographed by Vanessa Davies. *Little hands will enjoy getting to grips with lavender bags, wooden-spoon puppets and snow shakers, as well as crafting felt flowers, balsa-wood cars, Easter bonnets and spooky Halloween masks! *Every project can be completed in five or fewer steps and most of them use materials that you're likely to have around the house. Just follow the simple step-by-step instructions and you can't go wrong!
