Judy Anne Walter : Creating Color: A Dyer's Handbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Creating Color: A Dyer's Handbook:

0 of 0 people found the following review helpful. Dyers HandbookBy DianneNot what I was expecting. The information wasn't clear in describing what the book covered.I was thinking more on the lines of color mixing charts, etc. so if your looking for somethingas I was then I would think twice before ordering this book. I would say its more for advancedcolor something. he he1 of 1 people found the following review helpful. About This Book...By TheseusFrom the back cover: "Procion MX fiber reactive dyes are used extensively by fiber artists and others who are interested in dyeing fabrics which have lustrous color and a high degree of colorfastness and lightfastness..."...designed to serve the needs of both the beginning and more experienced dyer. All dye measuring is done with household equipment. There are time saving charts for those dyers, like quilters, who frequently dye small amounts of muslin. Formulas are provided for those dyers whose dyeing situations vary from dye session to dye session. And lastly, there are instructions on how to dye fabric in the washing machine."Chapters include Record Keeping, Color Mixing for Dyers, Dye Characteristics, Dyebath Ingredients, Abbreviations and Equivalencies, and Dye Color Comparison Chart."...dye safety, setting up a dyeing area...and dyeing techniques such as color gradations. Examples accompany all discussions. The book concludes with a question and answer chapter, a suppliers list, bibliography, glossary, and an index."8 of 8 people found the following review helpful. Great Basics for Beginning

DyersBy A CustomerThis book is a wonderful change from all the other dye books because it offers a series of charts that compare the relative 'strenghts' of different dye colors. This can be very important if one is looking to produce fabrics of the same basic color value. (For example, one tablespoon of fuschia does not yield the same depth of color as the same amount of jungle red.) It has many projects to lead the beginner to a full understanding of the dyeing process, and the technical aspects involved.

The book, Creating Color is designed to serve the needs of both the beginning and more experienced dyer. All dye measuring is done with household equipment. There are timesaving charts for those dyers, like quilters, who frequently dye small amounts of muslin. Formulas are provided for those dyers whose dyeing situations vary from dye session to dye session. And lastly, there are instructions on how to dye fabric in the washing machine.
