Should be titled Creative Wedding Floral ArrangementsBy KateAlmost the entirety of the book is focused on silk flower arrangements that look like they're from 1984. There are only a couple of accessories at the back of the book. This was a terrible waste of money. Anybody planning a wedding in 2011 and beyond would not use any of these arrangements.

Inside this book you'll find dozens of ideas for creating elegant bouquets, veils, headpieces, floral arrangements and keepsakes. Creative Wedding Decorations You Can Make features more than 80 fully illustrated, step-by-step instructions for crafting:A gorgeous array of silk floral bouquets for the bride and attendantsVeils and headpieces in 15 styles, featuring headbands, hats, wreaths and moreBreathtaking floral decorations for adorning everything from the altar, pews and candles to wedding cake, buffet tables and reception areaLovely silk corsages and boutonnieres for all members of the familyWonderful decorations for the ring bearer pillow, unity candle, champagne glasses, cake knife, guest book, wedding album, garter and more Gifts and accessories of all kinds, including pictures frames, sachets, decorative candles and centerpiecesEach decoration features a complete materials list with precise measurements, and a full-color photo of the finished piece. Best of all, the silk floral arrangements featured in this book can be made well

in advance of the wedding, and their beauty will last a lifetime.
