before purchasing it in order to gage whether or not it would be worth my time, and all praised Crochet with One  
Sheepish Girl: Easy Lessons Sweet Designs for Wearing, Living Giving:

3 of 3 people found the following review helpful. ... Meredith Crawford's OneSheepishGirl blog for years and have  
always enjoyed her style and crafty surprises By Alice I've followed Meredith Crawford's OneSheepishGirl blog for  
years and have always enjoyed her style and crafty surprises. Of course, I immediately had to have her new book!  
Coming from a crochet junkie with a HUGE library, I'd say it's a little lacking of the bursts of pure originality that  
makes me love her blog, but overall, it's still a solid book by a very talented author. I think any beginner would LOVE

this book. And as an advanced crocheter, I still can't wait for her \*second\* book. ;) 0 of 0 people found the following review helpful. Great book! By AnnaGreat book!!!! Easy to follow and understand for beginners, but also has a lot of helpful information and projects to challenge anyone who has been crocheting for awhile. I recommend this book to anyone who likes to crochet cute things!!! 2 of 2 people found the following review helpful. Beautiful Crochet Book!!! By TJI knew when Meredith announced she was publishing a crochet book that it would be as beautiful as her blog. I was not disappointed at all when it arrived.

The popular blog One Sheepish Girl ([onesheepishgirl.com](http://onesheepishgirl.com)) celebrates creativity and vintage style with an unmistakably modern flair and that's exactly what Meredith Crawford, its founder and editor, does in this beautifully curated collection. Crawford's fun, imaginative projects include a Diana Dreamer purse (an homage to her vintage camera of the same name), a bow brooch, a sweetly embellished blouse, a cottage tea cozy with a thatched roof, unique picture frames and gift boxes, and delightful garlands for party decorating. Tutorials and step-by-step how-tos cover basic crochet stitches and special techniques.

The first book from Crawford, creator of the popular craft blog [OneSheepishGirl.com](http://OneSheepishGirl.com), continues her sweet, pastel-colored, slightly kooky aesthetic, with more than 20 project ideas for crocheting. She begins with a thorough overview of crocheting basics, a helpful launch into the rest of the volume. While there are some attractive wearables here, including a clever crochet make-over for a purchased shirt's collar, the majority of designs are for home decor items, from a set of ombre baskets in three sizes and an adorable Cottage Tea Cozy, which looks like it dropped in from a British cartoon. The book's whimsy is very charming . . . Crawford's got a creative, engaging style. Publishers Weekly
