Jacquelyne Jones-North, Ken Leach, Ruth Forsythe, Madeline France : Czechoslovakian Perfume Bottles and Boudoir Accessories, before purchasing it in order to gage whether or not it would be worth my time, and all praised Czechoslovakian Perfume Bottles and Boudoir Accessories,:

0 of 0 people found the following review helpful. Lovely pics, very enjoyable!By CherylLovely pics , very enjoyable!0 of 0 people found the following review helpful. Czechoslovakian Perfume Bottles and Boudoir AccessoriesBy RenaeThis is a GREAT book. I bought it for my daughter and I'm going to buy one for myself. It is full of photos and as the saying goes "seeing is believing". This is a much needed book for the collector to see so many perfume bottles and I like the copies of original 1930's ads.0 of 0 people found the following review helpful. Five StarsBy Mary cobbiI already had the first version. This is an update of prices and reproductions.

Price guide with values updated in 2003 included This classic book has been out of print for five years, and used copies have actually sold for \$200 on the Internet! Now this volume is back in print in a greatly expanded, revised

edition. Collectors will be pleased to know that all pages of the original edition have been retained. They contain vital information on importers, makers, trade names, marks, styles, colors, decorations, and extensive catalog and advertising reprints. More than 800 perfume bottles are shown in color. The revised edition adds new essays by three leading perfume bottle authorities. Ken Leach describes America's fascination with perfume bottles and related items (c. 1910-1950), with special attention to the role played by Hollywood. Ruth Forsythe writes about recent reproductions of Czech perfume bottles. Madeleine France provides new historical perspectives and offers a hierarchy of perfume bottle categories to aid the collector. Accompanying these essays are 62 new photographs in spectacular color. With the addition of this new material, the book has expanded from 128 to 164 pages. An up-to-date 2003 price guide concludes the work. Collector interest in perfume bottles has mushroomed, and many beautiful examples were made in Czechoslovakia. This book provides essential information to collectors, and it is a visual delight to all lovers of beauty.

From the Publisher This classic book has been out of print for five years, and used copies have actually sold for \$200 on the Internet.
