1 of 1 people found the following review helpful. Fantastic book - stunning visuals! By Jorge Ortiz Excellent resource to know about new trend with minimalistic approaches for flower arrangement. I shared it with other floral designer friends and their opinion was very positive. Obviously, these are not designs to be copied "as is". Think on this as haute couture catalog. You can take great ideas for your personal work. Quite expensive, but the quality of the pics worth it. 0 of 0 people found the following review helpful. My thoughts By Shirley Coombe Was a little disappointed as was expecting a little more flamboyance from his work but all together enjoyed its content and it has given food for thought for some of the designs
