Eleanor Burns : Day Night Quilt (Quilt in a Day Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Day Night Quilt (Quilt in a Day Series):

Another Eleanor Burns Quilt Design Winner By Stephanie Bullock I bought this quilt pattern because I had seen a sample in a quilt store done all in black and white and thought it would make a wonderful quilt for a guy (my son). I wasn't wrong. Although the cover shows a quilt with three colors, the pattern booklet includes instructions for making the quilt both with three or with two colors (Yippee! I didn't have to figure it out myself!) and in any size you want, from a table runner to a king size quilt. Wow, what more could you ask for! Well, for more, as usual, Eleanor Burns makes quilt making fun and easy. Although I've never been able to do a "Quilt in a Day", her strip methods really do let you work up your quilt quickly. Also, there are all kinds of color variation suggestions (with great color photographs); wonderful seam pressing instructions; and complete finishing directions (binding, quilting). All of this information makes this perfect for a beginner quilter, yet the great

design makes it fun and interesting for more advanced quilters. All in all, a great booklet. 2 of 2 people found the following review helpful. enjoyable and fun for new quilter! By Julia Eleanor Burns has made this look hard pattern into steps that a beginner can follow. Each step is easy to follow and results are B E A U T I F U L!!! Having made a queen size for each of my sons in their favorite colors was fun and a real plus is that the left over cutouts you have make another laptop-sized quilt, too!! The 3 color, 3 strip instructions are our favorite. May try 4 strip, 3 color quilt as a laptop for myself. Mrs. Burns also has a quilting video on the process on YOUTUBE. The explicit diagrams and instructions really simplify the process. Be sure and get the book with the tool in the back. Try it and you will like it!! 7 of 7 people found the following review helpful. Fabulous Book Made Gorgeous Quilt!!!! By Doris Bailey I'm not a beginning quilter, but my crazy life demands that I make the quick and easy quilts if I'm ever planning to finish one! I haven't made an entire quilt yet, but I did four blocks---which I think they intend for use as a table runner---and made it into a square wallhanging. The process does use a lot of fabric, but it could not be easier! Eleanor Burns gives great directions and wonderful illustrations, so every quilter can be successful at this pattern. I even found that the pieces were cut so perfectly that I didn't have to worry about matching seams...I just lined up everything evenly on the cut edges and sewed, and the seams on the piecing were PERFECT! Highly recommend this book to every quilter, as long as you are comfortable with your rotary cutter. Buy this book, and have fun!

Day Night will mystify, enchant, and entertain you. It is magical with no smoke and mirrors and the technique is awesome. The pattern is made from strips and the illusion created by using the acrylic template included in the back of the book. Eleanor Burns offers variations on making a quilt with two or three contrasting colors. By using three or four fabric strips, the blocks take on a whole new look.

About the Author Thirty years ago Eleanor Burns introduced her first Quilt in a Day book, cultivating a quilt-making revolution. She presented her unique style, a diverse combination of cutting and sewing applications, creating new techniques altogether. Her quilting techniques replaced scissors and templates, with rips and strips, bringing rotary speed to patchwork. She also presented an incredibly rapid stitching system, applying the method of assembly-line sewing to piecwork. This invited all types of sewers to participate in an age-old tradition. Her concise, step-by-step directions are easy to grasp, allowing the possibility for anyone to be successful at making a quilt.
