Finally!By Corinne BrzeskiModern, fresh quilts using contemporary fabrics. I was so tired of old-lady patterns, but don't yet have the confidence to design from scratch. I wish I had had this book a year ago. It's perfect - I love it. It has over 20 quilt projects, too, (no tea cozies here) which makes it a great value for this price. I really loved other books by these quilters and would recommend them to others. This one was too much on the

appliqued flowers and not enough substance. It's not something I would want to replicate. As one review said, the quilts are too "cute". The other Material Obsession books are wonderful! I love their fabric choices and appreciate that they do not try to push a designer fabric line in their books.
