Ms. Melody D. Velez : MDV Custom Cakes: Adult Coloring Sheets before purchasing it in order to gage whether or not it would be worth my time, and all praised MDV Custom Cakes: Adult Coloring Sheets:

This is a hand drawn collection of cakes we have made at our boutique for adults to enjoy and color. Every cake in this book was a labor of love and we want to share them with the world. There are also a few activity sheets and blank cake designs for you to decorate. You can even bring them into our store to with designing and ordering your cake. We encourage submissions of completed designs so we may post on our site and social media.

About the AuthorMy name is Melody Velez and I have 4 beautiful children. I have always been an artist and have finally found my calling. I went to school for Criminal Justice, but found I couldn't escape what my true passion was...ART. I started my cake company together with my husband (baker with a construction background) and we have

become very successful at our craft. I love to design unique cakes and extreme sculpted cakes. We have been creating edible masterpieces since 2009 and recently acquired our first storefront in Yonkers, NY. We are very proud of all we have accomplished and want to share our designs with the world.
