Peter Saunders : Medieval Catalogue 3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Medieval Catalogue 3:

Medieval objects recovered from the drainage canals of the city of Salisbury in the 1850's led to the foundation of Salisbury Museum in 1860. The acquisition of many exceptional finds excavated from nationally significant sites, including Clarendon Palace, Old Sarum, Gomeldon and Salisbury itself, this medieval collection is one of the most outstanding in any provincial museum. This edition of the catalogue covers objects of bone, antler and ivory, enamels, glass vessels, cloth seals, papal bullae, lead and tin alloy metalwork, balances and weights, pottery, tile and brick, and jettons. Each section is written by national specialists. Over 1000 objects are published, many for the first time. Over

650 illustrations.
