Wallace M. Chrouch : Mego Toys: An Illustrated Value Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mego Toys: An Illustrated Value Guide:

0 of 0 people found the following review helpful. Five Stars By nanalove it 1 of 1 people found the following review helpful. Was a great resource for its time By Medicineman3 This was put out a looooong time ago. It was a great read when I first got it. There are more detailed and updated books on this subject currently out. 1 of 1 people found the following review helpful. Mego Toys By A Customer This book has a lot of detailed color photos and is a good quick reference book to walk around with at flea markets, toy shows and garage sales. It's a great book for new collectors and dealers. The book has color photos of most but not all of Mego's action figures and dolls that Mego made. But I found that the book was worth the money.

Finally there is a collector's guide devoted entirely to the action toys and superhero dolls--Batman, Spiderman, Aquaman and others--of Mego Corporation. This handy guide is filled with beautiful full-color photographs to help collectors identify their figures. Includes current market values.
