I think I own all of these publications and initially purchased "Shoes" elsewhere only to find the cd missing after I got home (imagine!). I love this particular topic and all of the Victorian snippets pic'd in the book...so not only bought this one from but whatever other book/cd combinations available that I didn't have.My art blog [...] has a pic of the Valentine greeting card I put together quickly using "Shoes" and other clipart.There is a

great deal of reference in this series of books that goes beyond their titles and more artistic endeavors than scrapbooking. 3 of 3 people found the following review helpful. beautiful vintage images By Sandra w. This is the first Memories of a Lifetime set that I bought here on .It is wonderful-one of my favorites. Lots of scrapbook or collage pages already designed for immediate use and then the CD allows you to break-down the images to use in other ways. Included are photos, drawings, old newspaper/magazine ads, and floral bouquets. Only about half of the images are vintage shoes, the rest is floral pieces, ladies, buttons, postage stamps, butterflies, lace and dress trims, music and tags.....and still more! Love this set---sandy in East Tennessee. 0 of 0 people found the following review helpful.
