**Louise Duhamel : Metal Clay Jewelry: Projects. Techniques. Inspirations.** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Metal Clay Jewelry: Projects. Techniques. Inspirations.:

12 of 12 people found the following review helpful. The Absolute Best Book I've read on metal clay By S. Caesar I recently started working with metal clay. As a result, I purchased a series of books in order to learn more. This book is by far the best I have ordered. I really enjoyed it because it is full of innovative, very creative techniques yet it also covers all the basics in detail. The directions are clear and don't make the beginner feel intimidated. This book guarantees that you won't be bored after you master the basics. 2 of 2 people found the following review helpful. Revealing Beauty of Metal Clay By Kindle Customer True inspiring and awesome works of metal clay are really INSIDE the book. This book shows techniques and design options not found in others (I have three other books by three different artists and authors). Many exquisite projects and a definite recommend for the metal clay enthusiast! 0 of 0 people found the following review helpful. Just what I needed !! By kris Great project beautiful and informative

Polymer clay and jewellery artists are experimenting with metal clay more than ever, but there are few books on the market to show them how to use this new medium. This book includes 19 step-by-step projects, an easy skill-building approach that teaches readers the basics, and a wide range of creative techniques.

About the Author Louise Duhamel has appeared on *DIY Jewelry* and contributed articles to *Belle Armoire* and *Art Doll Quarterly* magazines. She's a frequent workshop instructor, as well as a certified Senior Art Clay instructor and a precious metal clay instructor.
