7 of 7 people found the following review helpful. pleasant to read By book worm This book did not only offer a 'pleasant read' but I also found the illustrations stimulating and the text easy to follow. I enjoyed the paragraphs about playing with metal clay, glass and ceramics, the Hollow Bead Bracelet and the Origami chapter. But in the final pages I somehow lost interest as the 'Inspiration' pages were not very inspiring for me. All in all, I am pleased I bought the book. It certainly inspired me to find my own inspiration! 0 of 0 people found the following review helpful. very interesting By Bulldogvery in formative and great illustrations. lots of detail on the process of metal clay jewelry making with out a kiln.
