One of the true Masters of the Comic Book Medium!!!!By AParkRI've been a fan of George Perez's art since he and Marv Wolfman worked on DC's New Teen Titans back in the 1980s. From there, I went back and discovered his pre-DC run on Marvel's Fantastic Four and Avengers as well as his second Marvel run on the Avengers, Hulk:Future Imperfect, and the Justice League/Avengers crossover event. I was at a comic book convention a few months back in which he was one of the featured guest artists. Needless to say, the line leading to his table was so long that , even three hours later, showed no signs of abating. I was disappointed that I wasn't able to get my Justice League/Avengers book autographed by Mr. Perez.I had a copy of TwoMorrows Modern Masters: George Perez that inexplicably became lost a few years ago. It was one of the crown jewels in my

artistic collection and I had despaired its loss for quite some time. To say that I was able to find a used copy of the same book for an irresistibly low price here on made me very, very happy and eased my pain at not being able to get George Perez's autograph. It still thrilled me just as much as when I purchased the original copy and showcases why Perez is one of the masters of the comic book medium. Even his anecdotes are informative, insightful, and entertaining. Although I have several volumes of the Modern Masters series, I hold the Perez issue and the ones featuring Alan Davis, Bruce Timm, Arthur Adams, John Byrne, and Kevin Nowlan in the highest regard. I recommend this one to those who are fans of George Perez as well as those who are into great drawings. As someone who likes to draw and paint, the work of George Perez is one of my biggest inspirations. 0 of 0 people found the following review helpful. Five Stars By EWHA good read. 0 of 0 people found the following review helpful. George Perez in his own words and pictures. Recommended to fans of his work. By Trevor Hedden If you're a big fan of comics legend George Perez and want to hear about his career firsthand - as well as see many examples of his distinctive art, buy this book.

Modern Masters Volume 2: George Perez contains page after page of rare and unseen artwork, illustrating a comprehensive interview with Perez on his stellar career. This second volume in the new Modern Masters series delves into the artist's life, as Perez discusses his Puerto Rican upbringing, how he broke into the comics field, and the attention to detail that has made him one of comics' top talents.
