cute and the patterns are pretty simple. I'm hardly new to sewing so I haven't really given much attention to the instructions in the book, but they seem to be pretty good from what I can tell. For the price it's a pretty good deal even if I only use a few of the patterns. 2 of 2 people found the following review helpful. Great Summer Patterns By Helen Michael
great easy to follow patterns Great that you can download the patterns to your computer to print and have the book on your ipad to take with you to get fabric etc.

Best-selling author Patty Young, of ever-popular MODKID, debuts her newest collection of vacation outfits and accessories for 18 dolls in MODKID Summer Fun. Featuring fashionable details like ruching, gusseted pockets, and gathers, the full-size patterns come in a handy pattern pack format, including an easy-to-follow instruction booklet. From a swimsuit and cover-up to a sleeping bag and beach tote, these miniature designs are simple to make and stylish to boot!

Sophisticated Stitches for Favorite Dolls: Most of these patterns for swimsuit, shorts, t-shirt, coverup, tote bag, sleeping bag, pillow and sunhat are beyond the sewing skill level of a beginner, especially a tween: the shorts have cargo pockets, the coverup sides have drawstrings and sleeves have elastic to create shirring. The tote bag is lined and it, the hat and the swimsuit top have ruffles. What this publication does offer, however, is the opportunity for a duo to work together, using fabric remnants or repurposed clothes (jeans, for example, for the tote bag and hat) to practice special techniques. For example, the application of elastic to create gathers in the middle of a sleeve and making pleated patch pockets with flaps. If you're just beginning to sew for your children or grandchildren, the patterns also provide how-tos for features that can help clothes avoid the homemade look. One example is a two-part waistband on shorts, so that only the back half is elasticized. The casings on each side seam of the swimsuit coverup show a technique that could be adapted for the side seams of children's slacks, so that pants could be hemmed a couple of inches long and shirred with short drawstrings until more length was needed.
