Maggie Lane : More Needlepoint by Design before purchasing it in order to gage whether or not it would be worth my time, and all praised More Needlepoint by Design:

I have made several rugs from one book and various other projects from Needlepoint By Design. Already have some projects lined up from More Needlepoint By Design. If you love Asian design these books are the best. They are well diagrammed but you do have to put in some effort on most because you must count your stitches to follow the design. Believe me though, the end product is very worth it. I've seen some painted canvases from her rug book that were over \$600-just for the canvas-no yarn. To save that much I can count stitches!!0 of 0 people found the following review helpful. Nice designs.By Philip D. McGaugheyA very well written book with easy to follow directions.0 of 0 people found the following review helpful. A Classic and Out of PrintBy Darcy WetterstenThis book is a classic for all lovers of needlepoint charting and Asian-inspired design. Highly recommended for those who like more than just working from a painted canvas.

This sequel to Maggie Lane's Needlepoint by Design uses her needlework methodology to great effect with 27 original designs derived from Chinese traditions. Designs include Chessboard, Foo Lion, Longevity Symbols, Rosalia Alpina Longicorn Beetle (!), Island Temple, Peony Rug, Two Geese, Adam and Eve, Shrike, Dove at a Branch of Peach Blossoms, Thistle, and (the cover image) Fish in Spiraling Waves. Cloth over hardback boards with a sewn binding.

150 pp. Bw illustrations throughout with 16 color plates. Short bibliography. Index of stitches.
