J Stephani : More Than Memories: The Complete Guide for Preserving Your Family History (No. 1) before purchasing it in order to gauge whether or not it would be worth my time, and all praised More Than Memories: The Complete Guide for Preserving Your Family History (No. 1):

0 of 0 people found the following review helpful. I for one do not like all the colored paper. By working girl. Complete guide to preserving family history, hardly! It is a few pages with just some basic information about how to create a basic, kitschy scrapbook and the rest is just ideas for more of the same. I for one do not like all the colored paper, elementary school bulletin board style poster pages for archiving a family scrapbook. Also no ideas on what to save, how to protect it, how to notate it, how to track down names and faces and places, other digital means of archiving, etc. So just basic, "Cutesy scrapbooking 101" which would have been great if that is what I had wanted, but it was not.

I'm interested in family history, and this book had maybe two pages of not very original designs for a page or two to do that. 0 of 0 people found the following review helpful. Scrapbooking memories guide book By Customer So many wonderful and useful ideas to try.....highly recommend 12 of 12 people found the following review helpful. Excellent By A Customer I wanted a good basic book on scrapbooking. In the meantime, I found this book is the basis of a PBS program of the same title. I would highly recommend it for a beginner, or even for the experienced scrapper. I refer to it time and again for ideas.

Leading memory experts share their tips and techniques to give you the ultimate scrapbook guide. Organize and protect your photos and negatives. Display your photos and memorabilia in unique and clever ways. Write captions and stories that tell the rest of the story!
