This second volume, following on the success of the previously published, Art Glass from Murano, also by the author, looks more deeply into the major movements and developments in the production of high quality art glass on the Venetian island of Murano in the 20th Century Over 100 of the finest examples of the glassmakers' art, all recently exhibited in Ghent, Belgium make up this important addition to the documentation of the work of the major firms and designers active in Murano between 1910 and 1970.
