When her father saw this book he didn't quite understand why I bought it. I think that's because he was concerned it would encourage her to have too many drinks to celebrate her birthday.I explained that it would create memories forever and I wish I had my 21st birthday memories documented.We agreed that this is a female thing.So as a female, I encourage both women and men to purchase this book.1 of 1 people found the following review helpful. Five StarsBy CustomerPerfect gift for the birthday girl1 of 1 people found the following review helpful. Fun Book!!!!By SunshineYOU HAVE TO HAVE IT! Every 21 year old will have a blast with this book. Give it a shot...lol

My 21st Birthday gift book is a great purchase to give all your girl friends turning 21 years old. It allows you to capture the entire evening of the night, places you attended at what time, who was with you, what was going on, paste in pictures, and write down all your drinks with or without spirits!!!

About the AuthorI designed this book as I came across my homemade version that was made for me when I turned 21 in college. It is a great keepsake that I came across 15 years after the fact and reading through the captions helped me

relive one of the best times with my friends. I hope that you enjoy this book. My background is in finance entrepreneurship with my Doctorate Degree in Business Administration.
