"Children are quickly drawn in with clever games, projects and activities that get the moving experience started down a positive road that builds confidence all the way. From old to new, each part of the journey becomes special and chronicled forever in a unique keepsake." --Sally Smith, Tutor/Director, Unlocking Potential LLC, Fairhope, Alabama"Thanks so much for sharing the Moving Activity Journal with us. We think it's awesome. Even after our move, my daughter gets hers out every so often and adds more to it. I thought that was a great testimony to its appeal! It really is a neat thing for kids to have to do while a move is happening. And, I think it will be really cool for them to look back on. It's just a great idea all around!" --Joanna V., Mother of 2, Stillwater, MinnesotaAbout the AuthorNicole L.V. Jaeger is founder of Soaring Moon LLC and is author and illustrator of "My Moving Activity Journal." She has moved over 20 times, starting as a young child, and most recently, as the mother of a young child. Having lived in nine different states from coast-to-coast, she has first-hand experience in moving for school, work, changes in family circumstances, and to be closer to family. The Moving Activity Journal combines her own moving expertise, research, and appreciation of what it is like to be a little kid in the middle of a big change. Nicole Jaeger brings a multidisciplinary background and a passion for creating to Soaring Moon. Her background includes work as an attorney with a J.D. from Northeastern University in Boston, Massachusetts, administration of her family's general contracting business, work as an ecologist with a B.S. in Ecology Systematic Biology at Cal Poly University in San Luis Obispo, California, research in environmental science at the University of Colorado, Boulder, and teaching environmental education for a Y.M.C.A. program in the wilderness of northwestern New Jersey. Since early childhood, she has written stories and poems, and she drafted her first moving journal during one of her own big moves (1475 miles!) at the age of thirteen. Her longest move was over 3000 miles. Her most important, challenging, and rewarding job has by far been caring for her two young children.
