Elizabeth Letcavage, Melissa Harden : Natural Soap Making before purchasing it in order to gauge whether or not it would be worth my time, and all praised Natural Soap Making:

19 of 20 people found the following review helpful. I have enough soap to last for years By Rachael McKenzie I made tons of soap, the directions are clear, easy to understand and there are lots of varieties. I also purchased nearly everything you need to make the soap from also. Love it! All of my friends want me to teach them how to make it now too! 6 of 6 people found the following review helpful. Great for first-timers By T. Kapeles I am new to soap making and this book is excellent. Clear, concise instructions. Enjoy this book immensely and plan to use several of her recipes and tweak them to my own. 0 of 0 people found the following review helpful. Awesome book By Meagan E. Hall I absolutely love this book. Great information to get me started on my soap making journey. I prefer the second "basic" soap recipe.

How to make cold-process soap (soap from scratch) using only natural fragrances, colorants, and texture additives
Information on different kinds of oils and botanical additives and the special properties they give to the soap
How to make soap with layers, swirls, soap nuggets, and confetti
Includes 12 special soap recipes--oatmeal, milk, and honey soap; gardener's hand soap; all-natural shampoo bar; and more--along with tips for creating your own natural recipes
