Creating Keepsakes : Preserving Their Stories (Leisure Arts #4829) (Creating Keepsakes) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Preserving Their Stories (Leisure Arts #4829) (Creating Keepsakes):

1 of 1 people found the following review helpful. Preserving Their Stories By Karen R It's very important to have family history written down and this book has good guidelines. My job is working with dementia patients. Often when a family member has taken the time to write down little stories about a person or their hobbies, I feel like I wish I had met them earlier. We use this tool to help them remember. I'm using this book now for myself so my grandchildren won't see me as an old person but know I was a fun person with a full life. 3 of 4 people found the following review helpful. basic scrapbooking only By Connie I was excited about this book when I ordered it, as a genealogist who wants to write my family's history. However I found it to be minimally imaginative and more a collection of basic scrapbooking pages that did not add to my ideas about telling my family's story.

Preserving family memories is a universal hobby that presents a special challenge for families with loved ones who are experiencing memory loss, such as from Alzheimer's disease. This ground-breaking guidebook from the editors of *Creating Keepsakes* scrapbook magazine provides a wealth of effective ideas and projects to help individuals with memory loss, their families and loved ones, and their caregivers. It's loaded with advice on how to gather memories from various sources and have meaningful conversations with memory loss sufferers. The book includes projects such as mini albums with memories told like stories, detail albums of favorite places and family traditions, an album of "My Friends Over the Years," and a "What I Love" wall collage.
