**Jane Brocket : Quilt Me!: Using Inspirational Fabrics to Create Over 20 Beautiful Quilts** before purchasing it in order to gage whether or not it would be worth my time, and all praised Quilt Me!: Using Inspirational Fabrics to Create Over 20 Beautiful Quilts:

4 of 4 people found the following review helpful. Definitely not worth the money to me.By Mary Jane BrooksNice, very simple quilt designs that even the inexperienced quilter would not need a pattern for, and the inspirational fabric was definitely not what I expected. I do not have on hand dozens of needlepoint pictures to cut into blocks....and cannot imagine the stiffness of a quilt made of them or the difficulty in sewing. I do not have dozens and dozens of vintage embroidery...tablecloths, pillowcases, hankies, etc. And I wonder about the strength of their fabric and how it

would hold up in a quilt. And so on, with just about every quilt in this book. I was expecting quilts that could actually be used, not just admired for their uniqueness. And lastly, who...just who...selected the font size and lightness? Unbelievably inconsiderate to those of us who do not want to read by magnifying glass. I can find pleasure in almost any quilt book, but sadly not in this one. 4 of 4 people found the following review helpful. some inspiration for different quilts...By CustomerGood book for inspiration. The quilts aren't intricate or challenging, but it is fun to get some ideas for quilts you can make with what you have lying about! 0 of 0 people found the following review helpful. Love my new quilting book! By CASI love my new quilting book! Can't wait to make some quilts from the fun patterns. Great service and the book was in great condition. Very happy with my purchase!

Jane Brocket has a joyous and colorful approach to quilting, using simple shapes and patterns to stunning effect. With "inspirational fabrics" as her starting point, Brocket explores not only made-for-the-market patchwork materials, but also unique alternatives like clothes, curtains, and upholstery. Quilters will love her designs for "Granny Takes a Trip," with its vintage look and hand-embroidery; "Needlepoint Squares," "Crinoline Lady," and more!
