This coloring book contains quilt patterns and block designs, colorists and quilters alike. There are a total 67 coloring sheets. There are 2 copies of 26 individual quilt patterns, so the colorist can experiment with various color combinations. By changing the block colors there are endless hours of creative coloring and design planning. Each quilt pattern is there for your individual vision in use of color and pattern design. There are also 15 individual patterned quilt blocks for the colorist who enjoys working on more detailed designs. Each design is printed on a single side so there is no having to choose between patterns. Just let your mind go as you work on filling in all the patterns

with your favorite colors.
