Jenni Stuart-Anderson : Rag Rug Making: Contemporary Projects, Techniques and Inspiration for a Traditional Craft before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rag Rug Making: Contemporary Projects, Techniques and Inspiration for a Traditional Craft:

Not all rug makers use the traditional crochet type hook, where we work from the front, watching the magic of one color next to another. Like many other "hookers", some of us are more impatient. We work from the Back, poking into the foundation, and going MUCH faster. There are tools for this, some dating to the 1870's, and no, it isn't cheating. I first got this book from the library

and enjoyed it so much, I purchased it! From the front of the foundation fabric, it looks like traditional rug hooking, but faster. I use both methods. In many ways the crafts are more advanced than across the pond here in the USA. Good book.

Let Jenni Stuart-Anderson lead you on a journey through a fascinating world of rag rugs that will have you well and truly hooked! The 120 full colour pages feature: A look at the history of rag rug making, Effective ways to make rag rugs, with clear, step by step diagrams, Information on tools and equipment, Hints on planning, designing and marking out rug patterns, Projects to try yourself, Anecdotes and reminiscences about the craft, Dozens of contemporary rugs made by Jenni and other modern rug artists.
