[[VIDEOID:491198d7017a4e9448f959cd8c08f9dc]] This is a great book for working with burlap, hemp, cork and materials like these. Natural tones and textures can work with all sorts of decor. My personal favorite are the cork projects as I am a big saver of the corks from bottles of wine. The graphics can be fun to showcase and the memories are fun to think about. These projects are easy to do for all levels of crafter and would be perfect for all ages. These materials are also perfect for dressing up old items that can use a new look.

Join the raw craft revolution! With their natural colors and textures, eco-friendly materials such as cork, hemp, jute, and burlap are red-hot among the crafting communities on Etsy and Pinterest. Get in on the sustainable fun with these 40 irresistible projects, ranging from pillows and tote bags to woven bowls, birdhouses, frames, rugs, toys, and jewelry. There's even advice on customizing your creations with printing, dyeing, embroidery, beading, and other techniques! So, what are you waiting for?
