Simple Scrapbooks : Real.Life.Scrapbooking. before purchasing it in order to gage whether or not it would be worth my time, and all praised Real.Life.Scrapbooking.:

12 of 13 people found the following review helpful. Enjoyed it but nothing earth-shatteringBy NomadagainI enjoyed this book but found myself bored about half way through. I took a step back and tried to see why I felt that way. I realized her layouts contained too many posed photos. As much as I love posed portraits, I find beautiful candid much more exciting. I found that the perfect smiling faces got boring and repetitive. I like her style, but I found I also got bored with it half-way through. I have seen this same idea and style out in the industry a lot. It seems more appropriate for a series of magazine articles rather than a book on its own. If you don't already subscribe to one or more scrapbook magazines, then you will probably get a lot out of this book, but if you have a shelf-ful of magazines and idea books, I would pass. Or buy it with a 50% off coupon or wait for a really good sale if you HAVE to have it.0 of 0 people found the following review helpful. Three StarsBy Ann S PoplinDon't remember purchasing this at all. Don't have any idea about what happened to it after it was received.6 of 6 people found the following review helpful. real "real life"By

happy2bThis book is my TOP pick for scrapbooking. Rebecca's classic style and organized approach are fabulous. Her senior editor wrote in her introduction, "Curl up, put some music on and settle in with this book"... that's exactly what I would advise anyone reading this to do. It will be time well spent if you are interested in scrapbooking!

You'll find real reason why you should scrapbook. Includes practical approaches to scrapbook in an authentic yet feasible way. Creative ways to maximize your supplies, save precious time and keep your pages simple. Includes easy layout solutions you can use right away!
