Cute enough, just wish the animals had paws, tails and furry appendages.By ZooFor the money, it is a good book and has enough variety so you won't get bored. It would of been a hit with me had they made the arms, legs and hands of the animals non-human in form. As it is the pictures are just animal heads on human bodies.1 of 1 people found the following review helpful. Makes me smile when I use this bookBy Florida KayakerFashion Animals is a really cool coloring book, just like it states on the cover. Each of the drawings features an animal wearing human clothing and standing upright. The first thing that happens whenever I

open this book is a smile when I see the drawings. They are such fun to look at and to color. You get 31 pages to color. Each page has a single image centered on the page. The paper is good quality and of a nice thickness to color on. While the pages are not perforated, they will tear out easily if you open the binding all the way first. This is a plus for those of us that prefer to color on a clipboard. The book is the size of a standard piece of typing or copy paper, another helpful thing if you use a clipboard. All pages are one sided, also. There are some areas in this book that work well with gel pens but mostly a good colored pencil will be all you need to create your masterpiece. 4 of 4 people found the following review helpful. Fashion Animals Coloring Book By debbi berg This coloring book is just 2 funny!! There is a tiger dressed in a knit sweater with zebra striped pants, glasses, a necklace and a purse. Then there is the boy mouse with the little straw hat, little bow tie, suspenders, blue jeans with heart patches on the knees and rolled way up to show his striped socks and tennis shoes. There are dogs, deer, rabbits etc. dressed in some funny outfits, that's for sure. The paper is a little thin and it was not perforated so you could tear the pictures out to color.
