5 of 5 people found the following review helpful. Fantastic referenceBy rose RThis book is fantastic! I have read it from cover to cover several times. The detailed explanations are clearly composed, the illustrations are very very helpful. The way in which Jane Halliwell explains how to shade each type of flower is very easy to understand. Her approach to explaining the details is very logical and thorough. This book will be a good reference for me for years to come.1 of 1 people found the following review helpful. Rugs in BloomBy delanoladyThis book has a picture of each flower, a rating of difficulty, suggestions on how to hook it, a section on dyeing, a section on color, and well written text by an expert in this field. I am thinking about designing my first rug and this is very helpful. I have been hooking rugs for two years now and this is one of the best books on this subject that I have found so far. Thank you so much,
