However, sometimes I get photos that really deserve something special that I would like to "celebrate" for myself or as gifts. When I saw this book advertised in a magazine, I thought it would help generate ideas and give me some guidelines. I was not at all disappointed. I liked the book so much that I got Scrapbooking on the Wall 2, also. Try one. Try both. You will not be sorry.0 of 0 people found the following review helpful.
