**Andrea Zocchi, Kerry Arquette : Scrapbooking Sports: Celebrating Your Family's Sports Adventures** before purchasing it in order to gage whether or not it would be worth my time, and all praised Scrapbooking Sports: Celebrating Your Family's Sports Adventures:

0 of 0 people found the following review helpful. Scrapbooking SportsBy pargin61It was what I expected for ideas for scrapbooking my grandsons. And I received it when it was due which was appreciated.4 of 4 people found the following review helpful. One of a kindBy Rebecca AbramsI really loved the first (I think) book by these authors. When I saw a new book on scrapbooking sports I got it as soon as it was available. It is really fun! The layouts are beautiful. There is even a step-by-step of how to make a pattern on your paper using a bike tire! Equal weight is given to both girls/women and boys/men. A great book for any scrapbooker.4 of 4 people found the following review helpful. Great Resource!By Sports MomAll our kids are big into sports and this book has wonderful layout ideas for most every sport and both boys girls. Also includes lots of tips to making the layouts extra special with easy ideas. Highly recommend!

Wherever there's a game, cameras are clicking and that means lots of treasured sports snapshots to preserve. Whether it's a picture of a child's Little League tournament or a photo of a World Series showdown, show it off in an exciting scrapbook. With these super ideas for displaying everything from action shots and athletes' portraits to memorabilia, sports fans can jump right on in and get creative. Eye-catching layouts show how to commemorate a game's high points and play with football, baseball, basketball, and soccer images. Capture the thrill of tennis, gymnastics, and martial arts. Plus, try the fun suggestions for getting wet and wild with photographs of various water sports: seven snorkeling and scuba diving.

From Booklist Consider Arquette and Zocchi's book as an incredibly innovative and subtle way to promote the glories of exercise while sitting down. However, if you expect to learn the art of scrapbooking, step by personal step, fuhgeddaboutit. This is devoted to, first and foremost, sharing others' art pages about all things sporting; second, to quizzes and factoids ("from the color guy"); third--and last--a few how-to's in every chapter, such as making a decorative shell border. Each chapter pays tribute to wins and near misses of adults and kids in almost every sport, including America's favorite pastime, fishing victories, and cheerleading stunts. At the front are handy summaries of terms and supplies; at the end, answers to quizzes and trivia and a tongue-in-cheek promotion of "scraprobics." A true picture book of ideas.
